He said the various complica- they are far apart, and no one of tions in this very comprehensive and them has very much to fall back important suit were not so great as upon. The qustion is an open one, might be generally supposed, yet it and the finding of oil in all parts of was not possible to give the whole the world serves to keep it open, and matter chronologically other than to no one anticipates an early state that it grew out of an act of settlement of it. The oil is in the Congress March 3, 1875. It enacted | earth and that is about all that we that right of way is hereby granted know about it .- National Oil Reto any railroad company organized porter. nnder the law filing its papers within twelve months after location and survey, providing also that all gov-

ed that any land office shall have the Harshaw, and learned the parjurisdiction and power to approve ticular of the recent strike of very or disapprove of any act or acts in- rich ore. The mines have a revolved therein, but that must be left | markable record as producers acalone to the Secretary or Department of the Interior. He took up the history of the Utah Northern, the Oregon Short Line, Utah Central and other connecting lines following through to proposed construction of the road from Milford to Clover Valley Junction and Pioche in Nevada. The Oregon Short Line between possessor of the property and the undertaking. It also became badly involved with indebtedness, and after expending over \$700,000 upon the portion of the grade within the borders of Nevada, it had to take a rest, and subversely the property of the Utah Northern, and the second the pleasure of the womers. When money is needed the owners. When money is needed the mines are working shipments are mines are working shipments are mines are working shipments are mines are closed up. The mines are literally draw as sight. Nature made the deposits and the drafts have always been honored. A proceeding of the property and the undertaking. It also became badly involved with indebtedness, and after expending over \$700,000 upon the portion of the grade within the borders of Nevada, it had to take a rest, and subversely in the propertion of the control of vada, it had to take a rest, and sub- Powers has presented a handsome sequent failure to pay taxes got the property sold into the hands of a receiver. The Utah & California museum among other specimens company tried to take advantage of from the varied mineral deposits of the situation, acquired a seeming Arizona-Tucson Citizen. title and proceeded to make a showing of attempt to build a railway over the Uvada grade in question, but it could not be otherwise than unsuccessful. Measures were alroady taken to relieve all difficulties, and this places the enterprise upon a financial basis on which to carry it through to completion. The title in his now famous Almanac for many never was forfeited or lost, the grade was one of the finest and best in construction, a monument to its enterprising projectors. The right of plaintiff therein still holds substantial and good against all contestants or competion. Court here adjourned at 4 p. m. till tomorrow, when arguments will continue.

The Earl Russell, about whose matrimonial difficulties the associated press is making such a row, was on the Comstock last summer, says the Report. He was chiefly noticeable for a pair of brilliant blue trousers that balked half way down his legs-"high waters" in fact-and a very black pipe that was loud, and long in reach. Mollie Cook, or Summerville, with whom he is alleged to have committed bigamy relief. W. W. Ellis, Sacramento. through the medium of a Reno marriage was with him at the time of his visit here—a dumpy woman who wore a Tam O'Shanter and smoked cigarettes. Her most striking personal quality was her intense ugliness, she being nearly as homely as the noble lord. All who saw them will unite in saying that they probably eloped from spite.

Origan of Oil

The scientists are all at sea as to S. L. Tribune Special. Carson, the origin of the oil that is found in beneath the ice 't Dawson average Nev., June 25 .- In the Short Line "sands" in nearly all parts of the vs. San Pedro road suit this morning country. It has no relation to coal the defendant described the diffi- deposits being found in California, culties encountered in trying to start | where there is no coal, and in Texas building a railroad over the Uvada where there is none nearer than grade section to Clover Junction Alabama and in other States wholly disconnected with coal fields.

And to make the search for its large number of deeds from various origin more difficult every oil field and almost every well yields an oil of conveying right of way, showing \$40 different nature. No two sands proto \$80 per acre paid, also more maps | duce similiar oil. The oils of Russia and diagrams, with depositions of Java and Peru are each and all alike. surveying engineers and contractors. The oils of Texas are as unlike those Certified copies of documents and of California and those of Calmaps in the case filed in the United ifornia are unlike those of Penn-States Land office as well as the re- sylvania. The oil from one stratum ply from the Secretary of the Inter- in a well is unlike the oil from anior were also filed in evidence. The other stratum in the same well. All plaintiffs read and filed several affi- this confuses the investigators, and davits regarding the Oregon Short they are full of theories, none of

The Iri R. Hicks 1901 Almanac.

Whatever may be said of the scientific causes upon which the Rev. Irl Hicks bases his yearly forecasts of of storm and weather, it is a remarkable fact that specific warning of every great storm, flood, cold wave and drouth, have been plainly printed years. The latest startling proof of this fact was the destruction of Galveston, Texas, on the very day named by Prof Hicks in his 1900 Almanac, as one of disaster by storm along the gulf coasts. The 1901 Almanac, by far the finest, most complete and beautiful yet published is now ready. This remarkable book of near two hundred pages, splendidly illustrated with charts and half-tone engravings, goes as a premium to every subscriber who pays one dollar a year for Prof. Hicks' journal, Words and Works. The Almanac alone is sent prepaid for only 25c. Order from Word and Works Publishing Company, 2201 Locust Street, St. Louis, Mo.
